Technical Skills

Languages: Java, Python, C, MySQL, MATLAB

Core Concepts: DBMS, VLSI, Antenna Design, OOP, Digital Electronics

Projects

Flappy Bird Game | Java, OOP, GUI

Academic Project

- Developed Java-based Flappy Bird clone with animation and collision detection.
- Implemented scoring using OOP and GUI principles.

Microstrip Patch Antenna | Research Publication

Academic Project

- Published: "Design and Analysis of Compact Microstrip Patch Antenna for WLAN with EBG Structure." Optimized antenna performance using Electromagnetic Band Gap structures.

Full-Stack Management Systems | Java, Telegram API

Academic Project

- Developed a Smart Home Management module and a Telegram-based online ordering platform.

Experience

Brainery Spot Technology | Intern May 2025 – July 2025

- Learned the basics of Embedded C, including programming techniques used in microcontroller-based systems.

Lifology Social Program | Presenter

- Delivered career awareness sessions at various schools to guide the next generation.

Certifications & Training

Digital Circuits Certification

NPTEL

Online Course

- Certified on Digital Circuits through NPTEL.

VLSI Design Training

Internshala

6-Week Training

Online

- Learned VLSI design concepts including HDL, FSM, FPGA, and circuit design. – Completed case studies and final project.

MATLAB Training

Internshala

5-Week Training

Online

- Learned MATLAB basics including functions, plotting, programming, and applications.
- Completed case studies and final project.

Achievements

- Successfully coordinated 10+ college events and took part in Smart India Hackathon (college-level).
- School First in CBSE Class 10 and School Second in Class 12 (highest marks in Mathematics & Physics).
